9.8% to KShs 211.39Bn.

M-PESA revenue grew
13.4% YoY to KShs 182.74Bn.

Fixed service and IoT revenue grew
12.8% YoY to KShs 20.01Bn.

Three-month active customers grew
25.4% YoY to 71.56Mn

One-month active customers grew
14.2% YoY to 50.66Mn.

*STE & Group YoY numbers includes IAS 29 impact

Peter Ndegwa, Safaricom PLC CEO commented

Overview

Financial Year 26 was a landmark year for Safaricom. Beyond delivering strong commercial performance, the year carried deep symbolic and strategic significance, marking 25 years of how our network, platforms, products and services have transformed lives and continue to improve everyday life for millions of Kenyans.

Through nationwide celebrations, grassroots engagements and community initiatives, we connected directly with Kenyans from all walks of life.

These engagements directly shaped improvements in network experience, customer care, platform innovation and affordability, ensuring that the value we create is felt widely across our ecosystem.

We remain deeply grateful to our customers, partners and communities who co created impact with us, not just by using our services, but by helping us

shape solutions that reflect real needs. Their voices reaffirmed our purpose of Transforming Lives and strengthened our responsibility to serve Kenya as its most trusted technology and financial services partner.

Purpose Driven Foundation Initiatives & ESG

Through the Safaricom and M-PESA Foundations, we advanced digital inclusion, financial empowerment and youth opportunity, underpinned by a strong sustainability agenda. The launch of Citizens of the Future, our flagship education programme, expanded access to quality learning, digital tools and safe learning environments, creating long term opportunity for learners, teachers and communities nationwide. In health, maternal and childcare improved through Uzazi Salama, while free medical camps and telemedicine expanded access to quality care. Economic empowerment advanced through Wezesha Agri and Wezesha Mama, supporting youth and women with skills training, grants and digital tools. These initiatives reflect our inclusive approach to innovation, anchored in partnerships, purpose led brand storytelling and measurable national impact, while reinforcing Safaricom's role as a catalyst for sustainable social and economic progress.

Operating Environment

Safaricom continues to operate in a highly regulated environment, with evolving oversight across telecommunications, financial services, data protection, and digital platforms. FY26 benefitted from a stable and more predictable macroeconomic environment that enabled consistent execution and forward planning. In Kenya, inflation remained below 5% and GDP growth averaged around 5%. The Kenyan shilling held stable for most of the year, supporting business confidence and consumer spending.

For customers, this translated into continued access to affordable connectivity and financial services during a period of high living costs.

Safaricom Ethiopia

Our purpose in Ethiopia remains to transform lives for a digital future and our vision is to establish an innovative brand loved by our customers. We are building a world-class network focused on earning customer loyalty and are experimenting/learning from the

lessons and the challenges as the business evolves, to create a digital future for our customers guided by strong values in customer obsession, trust and respect, speed and innovation and compliance & integrity. Our brand has been established as a data network and our customers appreciate the superior customer experience we offer, reliable connectivity & speeds, as well as secure access to the fastest data network in Ethiopia.

In Ethiopia, the operating environment remained stable, with GDP expanding 9.2% (2024/25) and inflation easing into single digits, driven by declining food inflation. This marked the lowest inflation levels since 2018 and reinforced the National Bank of Ethiopia's achievement of its single digit inflation objective. ETB continued to depreciate against both the dollar and the Euro, with the second half of the year remaining stable compared to the first half. Industry-led regulations to build a sustainable industry on Reference Infrastructure Sharing Offer (RISO) and guidelines on cost of service for voice and mobile data, provided improved pricing clarity and predictability in operating conditions. The combination of macro stability, ongoing regulatory driven policy changes, and disciplined internal execution enabled the business to maintain momentum across our key segments.

Customer growth remained strong, underpinned by rising usage and increasing customer density, while network investment focused on optimising capacity and sweating existing assets in priority regions rather than aggressive footprint expansion. The business implemented price adjustments in December 2025 across key products, with further gradual adjustments expected as part of the phased implementation of the regulator mandated cost of service for voice and data. These pricing actions are supporting revenue repair while maintaining affordability in a market that continues to have among the lowest telecom prices in Africa, despite sustained inflationary pressures.

Key Business Updates

We successfully returned to the domestic bond market for the first time in over a decade, securing capital at competitive rates. The strong investor appetite reflected confidence in Safaricom's fundamentals, balance sheet strength, and long-term strategy. Together with our Sustainability Linked Loan, this funding further aligns our capital structure with our sustainability commitments, linking financing terms to measurable progress in carbon reduction, digital inclusion, and social impact.

Across FY26, we maintained sharp focus on delivering scalable technology platforms that meet the evolving needs of our customers. In Kenya, continued expansion of 4G+ adoption supported broadband usage and digital content growth. In Ethiopia, we sustained rollout in priority towns and strengthened distribution to enhance availability and customer experience. The successful rollout of Fintech 2.0 enhanced stability, capacity and fraud controls, materially improving resilience while unlocking new customer and merchant experiences. This upgrade lays the foundation for platform monetisation and advanced capabilities, including AI driven reconciliation and ecosystem services. The launch of Ziidi Trader marked an important milestone, broadening access to capital markets and demonstrating early traction as a new driver of financial deepening and inclusion. We implemented data minimization to person-to-person transactions, with recipients only seeing two names and a masked number. This reflects our ongoing commitment to embedding privacy across our financial ecosystem.

Vision 2030

FY26 marked meaningful progress in advancing our Vision 2030- To become Africa's leading purpose-led technology company, reaffirming our commitment to transforming lives and becoming a technology company that delivers inclusive digital and financial solutions across our markets. This progress was underpinned by the continued strength of our Kenya business and the steady scale up of Safaricom Ethiopia, despite a more complex operating environment.

Our ambition remains centred on delivering personalised, value adding services to our customers, while partnering with the public sector and stakeholders to accelerate digitisation. Connectivity and mobile financial services continue to form the backbone of this transformation. Through disciplined execution and sustained investment, we are strengthening the foundations for long term growth, expanding digital inclusion, and unlocking new opportunities for individuals, businesses, and communities across the Group.

Dividends

During the year, an interim dividend of KShs 0.85 per ordinary share (2025: KShs 0.55) amounting to KShs 34.06Bn (2025: KShs 22.04Bn) was declared and paid. The directors have proposed a final dividend in respect of the year ended 31 March 2026 of KShs 1.15 per ordinary share (2025: KShs 0.65) amounting to a total of KShs 46.08Bn (2025: KShs 26.04Bn) to be approved at the Annual general meeting (AGM) to be held on 31 July 2026. This brings the total dividend for the year to KShs 80.13Bn (2025: KShs 48.08Bn) which represents KShs 2.00 per share in respect of the year ended 31 March 2026 (2025: KShs 1.20 per share). The final dividend will be payable on or about 4 September 2026 to the shareholders on the Register of Members as at the close of business on 4 August 2026.

FY27 Guidance

Safaricom delivered a resilient performance in FY26 against a backdrop of continued macroeconomic pressure and heightened geopolitical disruption affecting supply chains and energy costs. Despite these headwinds, the Group sustained strong commercial momentum across both Kenya and Ethiopia, reflecting disciplined execution and reinforcing confidence in our strategic direction. FY26 marked the first full year of execution under Vision 2030, our ambition to become Africa's leading purpose-led technology company. This strategy is anchored in customer-centric innovation, leveraging technology to deliver relevant, impactful solutions that deepen engagement, drive inclusion and create long-term value.

In Kenya, we maintained robust performance across our core businesses, supported by strong customer activity, continued innovation and resilient execution. We focused on protecting affordability while competing on value and experience, enabling us to defend market leadership and deliver high-quality earnings. Our Enterprise and Digital businesses continued to scale, reflecting rising demand for connectivity, cloud, fintech and integrated digital solutions. In Ethiopia, we progressed from market entry to early scale. The successful launch of M-PESA, expanding network coverage and improving regulatory clarity represent important milestones as the market normalises. We remain focused on disciplined investment and commercial scaling as Ethiopia transitions toward becoming a sustainable second growth engine for the Group. Collectively, these outcomes underscore our commitment to protecting shareholder value, strengthening business resilience and positioning the Group for sustainable long-term growth.

In FY27 we expect Group EBIT of KShs 180–187 billion and Group Capex of KShs 64–70 billion. Kenya EBIT is expected to be KShs 195–199 billion, with Ethiopia delivering an EBIT loss of KShs 12–15 billion as we continue to reduce startup losses. Kenya Capex is expected to be KShs 58–61 billion, with KShs 6–9 billion in Ethiopia. FY27 guidance numbers exclude IAS 29 impact. We remain confident in our ability to deliver on our strategic priorities, navigate near-term volatility and continue building a resilient, future-ready organisation well positioned to capture long-term opportunities.

Looking Ahead

In FY27, we will accelerate growth by deepening customer value through more personalised, affordable, and integrated propositions, while scaling M-PESA's next frontier across merchant solutions, credit, savings, insurance, wealth, and cross border payments. We will also advance AI driven customer experience, network optimisation, and productivity across the business, strengthening our digital capabilities. At the same time, we will grow Safaricom Ethiopia sustainably as mobile financial services unlock new revenue pools, while reinforcing our sustainability, climate, and digital inclusion commitments.

Dilip Pal, Safaricom PLC CFO commented:

Business Review – Group

We are pleased to report a strong performance for FY26, reflecting the Group's resilience and strategic focus amidst a dynamic operating environment. Group Service Revenue grew by 11.5% YoY to KShs 414.1Bn, driven by double digit growth in Kenya and accelerated growth in Ethiopia. Profitability improved in line with revenue growth, supported by disciplined cost management and operational efficiencies, enabling strong cash generation to support ongoing investment and shareholder returns. Our customer base also expanded significantly, with total Group three-month active customers rising by 25.4% to 71.56Mn, and one month active customers increasing by 14.2% to 50.66Mn.

In Kenya, the macroeconomic environment remained stable and supportive, with inflation contained below 5%, while GDP grew by 4.6% (2025), and the Kenyan shilling broadly stable at approximately 129/USD. This stability continued to support customer usage, affordability and overall investor confidence. Against this backdrop, Safaricom Kenya sustained its market leadership, maintaining a 66.8% GSM customer market share as at December 2025, according to the Communications Authority of Kenya.

In Ethiopia, inflation eased to single digit, 9.4% as at March 2026. However, the Birr depreciated by 23.7% against the US Dollar in FY26 to 154.96 as at 31 March 2026 while it weakened by 39.6% to 180.96 against the Euro in the same period. This FX impact has been reflected in our consolidated financial statements. Ethiopia is moving into a more stable, scaling business phase, clearer regulation (cost of service pricing, Reference Interconnection Offer (RIO)/ Reference Infrastructure Sharing Offer (RISO) approvals), improved security, rising customers, and early signs that revenue per user is getting healthier relative to costs.

Business Review – Kenya

1. Financial Services/M-PESA

M-PESA delivered another strong performance, with revenue growing by 13.4% YoY to KShs 182.7Bn, driven by growth in both customer numbers and usage. The number of one-month active customers grew by 14.5% YoY to 40.99Mn. Transactional momentum remained robust, reflected by value growth of 8.9% to KShs 41.68Trn and volume growth of 25.1% to 46.41Bn, while chargeable transactions recorded even stronger expansion, with values up 17.0% and volumes increasing by 27.6%, reinforcing the resilience and depth of the M-PESA ecosystem. Chargeable transactions per active one-month customer rose by 11.5% YoY to 42.27.

The merchant base expanded by 71.0% to 3.1Mn, driven mainly by Pochi, which grew by 81.5% to 2.1Mn, while Lipa Na M-PESA merchants increased by 54.2% to 1.0Mn. Wealth management also gained traction, with AUM more than doubling to KShs 21.0Bn, driven by Ziidi's strong uptake with AUM growing >100% to KShs 18.7Bn. During the year, we launched Ziidi Trader, enabling customers to seamlessly trade listed securities directly from their mobile phones. The platform expands M-PESA's Wealth Management proposition beyond savings into active investing, supporting broader retail participation in capital markets. M-PESA now contributes 45.6% of total service revenue in Kenya from 44.2% in FY25.

2. Connectivity Business

The Connectivity Business delivered steady growth, with revenue increasing 6.9% YoY to KShs 197.9Bn, accounting for 49.4% of

service revenue in Kenya, compared to 50.8% in the prior year. Mobile Data became the largest contributor to connectivity revenue, representing 42.1%, overtaking Voice at 41.3%, underscoring the continued shift in customer usage patterns. Messaging revenue declined by 11.8% YoY, driven by structural changes in customer behaviour as usage continues to migrate toward IP based and over the top messaging platforms, in line with global industry trends. Mobile incoming revenue grew by 15.5% YoY to KShs 9.1Bn, while content revenue increased marginally by 0.5% YoY to KShs 2.4Bn.

● Mobile Data

Mobile Data recorded strong performance, with revenue increasing 14.4% YoY to KShs 83.35Bn, supported by continued customer growth, increased usage and device penetration. One month active mobile data customers grew 11.2% YoY to 34.13Mn, while customers consuming more than 1GB per month increased 22.4% to 14.52Mn, signalling stronger engagement. Average data consumption per chargeable subscriber rose 16.6% YoY to 4.92GBs, while ARPU increased 2.6% YoY to KShs 274.00. We continue to enhance affordability through our targeted CVM initiatives. Rate per MB declining 12.1% YoY to 5.44 cents.

Growth was further underpinned by enhanced device penetration. The number of smartphones in our network grew 21.2% to 33.16Mn, expanding the addressable market for digital services. The migration toward higher capacity devices continued, with active 4G+ devices growing 31.8% to 30.78Mn, driven by 4G growth of 30.6% to 29.15Mn and 5G growth of 55.5% to 1.64Mn, supporting sustained growth in data consumption. Mobile Data now contributes 20.8% of total service revenue in Kenya, reinforcing its role as a core revenue growth pillar within the Connectivity portfolio.

● Voice and Messaging

Voice revenue grew 1.3% YoY to KShs 81.82Bn, supported by higher usage and a growth in customer base. Minutes of use (MOU) per subscriber increased 5.4% YoY to 211.61 minutes, while one month active voice customers grew 4.7% YoY to 31.55Mn, reflecting sustained engagement. This growth was partly offset by yield pressure, with the outgoing rate per minute declining 8.5% YoY to KShs 1.02, driven by targeted commercial offers focused on enhancing affordability and stimulating usage.

Messaging revenue declined 11.8% YoY to KShs 11.0Bn, as messages per subscriber fell 24.0% YoY to 121.45. The decline was partially mitigated by growth in the customer base, with one month active messaging customers increasing 24.7% YoY to 26.24Mn.

3. Fixed Service & IoT

Fixed Services and IoT revenue grew 12.2% to KShs 20.20Bn, driven by increased connections and a strengthened value proposition. Growth was supported by a diversified portfolio across FTTH (Fiber to the Home), FTTB (Fiber to the Business), wholesale, and IoT solutions. Fixed service and wholesale transit revenue rose by 11.7% YoY to KShs 19.07Bn, supported by strong growth in Consumer revenue, which increased by 19.5% YoY to KShs 9.03Bn, and a 5.5% YoY uplift in Enterprise fixed revenue to KShs 10.04Bn. IoT revenue rose by 20.8% to KShs 1.13Bn.

Fixed connectivity continued to scale strongly, with FTTH customers increasing 35.0% YoY to 407.08k, driven by expanded fibre coverage and growing demand for high speed internet. Network expansion remained robust, with homes connected growing 45.9% YoY to 739.38k (532.97k six months active) and homes passed increasing 16.2% YoY to 807.02k. Enterprise fixed customers grew 19.7% YoY to 83.61k, reflecting sustained uptake among SMEs and corporates seeking reliable connectivity solutions. Overall connection growth was significantly supported by 5G Fixed Wireless Access (FWA), which contributed 52.3% of total connection growth, with FWA customers increasing 53.0% YoY to 132.06k, while fibre customers grew 25.8% YoY to 358.64k.

● Profitability

Earnings Before Interest Tax, Depreciation and Amortisation (EBITDA) rose by 13.7% YoY to KShs 233.89Bn while Earnings Before Interest Tax (EBIT) grew by 15.3% YoY to KShs 182.30Bn during the period.

Net income increased by 24.7% YoY to KShs 119.10Bn, underpinned by strong contributions from M-PESA and Mobile Data. Performance was supported by continued expansion in the customer base, higher usage levels and effective monetisation.

Business Review – Ethiopia

● Service Revenue

Service revenue recorded a strong growth of 58.3% YoY to KShs 14.08Bn, driven by customer growth across all revenue lines, as well as increased adoption and deeper market penetration. The revenue mix continued to evolve, with voice contribution rising to 21.4% of total service revenue, up from 15.1% in FY25, reflecting accelerating traction in voice services. Mobile Data remained the dominant revenue stream, accounting for 67.9% of total service revenue, compared to 75.4% in FY25, underscoring sustained demand while indicating a progressively more balanced revenue structure as the business scales.

Mobile incoming revenues contributed 5.1%, with the remaining 5.6% derived from Messaging, M-PESA and Fixed Services, supporting further diversification of revenue sources. Overall, Ethiopia contributed 12.5% to total Group service revenue growth, highlighting its growing strategic importance within the Group's medium term growth portfolio. Customer momentum remained strong, with 90 day active customers surging 54.2% YoY to 13.63Mn, while one month active customers increased 48.3% YoY to 10.75Mn, reflecting accelerating adoption and deepening engagement across the market.

● Voice and Messaging

Voice revenue surged by 123.9% YoY to KShs 3.01Bn, driven by sustained growth in the customer base and rising usage levels. One month active voice customers increased by 39.6% YoY to 8.50Mn, while 90 day active voice customers grew by 42.3% YoY to 11.13Mn, reflecting broad based adoption and deepening engagement. Usage trends remained positive, with outgoing minutes of use per subscriber increasing 13.6% YoY to 144.64, supported by improved monetisation, as ARPU increased 21.2% YoY to KShs 34.46.

Messaging revenue rose strongly by 82.3% YoY to KShs 169.38Mn, driven by growth in customers and higher usage intensity. One month active SMS customers grew 22.1% YoY to 3.64Mn, while 90 day active SMS customers increased 27.7% YoY to 6.17Mn, signalling expanding reach across the customer base. Usage also strengthened, with SMS usage per subscriber rising 38.4% YoY to 24.73.

● Mobile Data

Mobile Data revenue grew by 42.5% YoY to KShs 9.56Bn, driven by rapid customer acquisition and sustained increase in usage. One month active mobile data customer base expanded by 48.5% YoY to 7.84Mn, while 90 day active data customers increased by 46.3% YoY to 10.40Mn, reflecting accelerating adoption and deepening customer engagement. Usage remained resilient, with average data consumption per subscriber rising 6.8% YoY to 6.90GB, supported by improved affordability and expanding network availability.

Overall, Mobile Data accounted for 67.9% of total service revenue in Ethiopia, reaffirming its position as the primary revenue driver while supporting the broader scaling of the business. Performance was supported by targeted Customer Value Management (CVM) initiatives, which enabled more personalised bundles and sustained customer engagement. These initiatives, alongside expanding network coverage and improved service quality, supported broader access, higher usage intensity and a more sustainable, diversified revenue base as the business continues to mature.

● Fixed service and Wholesale transit

Fixed service and wholesale transit revenue rose by 185.6% YoY to KShs 200.90Mn, supported by increased connections.

Year-on-Year growth rates for Safaricom Ethiopia are calculated excluding IAS 29 Impact.

Detailed financials for the Group including separate disclosures of our Kenya and Ethiopia business operations are included in this booklet for your review.

<i>Items that will subsequently be reclassified to profit or loss in subsequent periods:</i>					
Exchange differences on translation of foreign operations**		(17,667.3)	(153,790.2)	-	-
Other comprehensive loss for the year		(17,667.3)	(153,790.2)	-	-
Total comprehensive income/ (loss) for the year		56,008.7	(108,033.0)	118,353.9	94,954.1
Attributable to:					
Equity holders of the parent		86,037.4	(9,668.2)	118,353.9	94,954.1
Non-controlling interests		(30,028.7)	(98,364.8)	-	-
Total comprehensive income/ (loss) for year		(56,008.7)	(108,033.0)	118,353.9	94,954.1

*EPS is calculated by dividing the profit attributable to equity holders of the parent by the weighted average number of ordinary shares of the company.

** These components of other comprehensive income do not attract any tax.

Effective 30th June 2025, Ethiopia is no longer classified as a hyperinflationary economy under IAS 29, following a sustained decline in inflation indicators. As a result, Safaricom will discontinue reporting under the hyperinflationary accounting standard (IAS 29) for its Ethiopian operations going forward. See details on page 26.

*Safaricom Kenya in the table above refers to the Kenya region with all subsidiaries in Kenya consolidated therein, while Safaricom Ethiopia numbers relate to the Safaricom Telecommunications Ethiopia (STE) (which consolidates Safaricom M-PESA Mobile Financial Services PLC) numbers. Safaricom Group column consolidates Safaricom Kenya, STE, Vodafamily and GPE. Intercompany eliminations relating to all subsidiaries under the group are reflected at group level. Safaricom Group and Ethiopia numbers include the residual impact of IAS 29 reporting from prior periods.

3. SUPPLEMENTARY INFORMATION

The foregoing information was extracted from the Group's financial statements for the year ended 31 March 2026.

A. Accounting Policies

a) Basis of preparation

These condensed consolidated financial statements for the year ended 31 March 2026 have been prepared in accordance with International Accounting Standards (IAS) 34, Interim Financial Reporting and the framework concepts and the measurement and recognition requirements of IFRS. These condensed consolidated financial statements do not include all the information and disclosures required in the annual financial statements and should be read in conjunction with the Group's annual financial statements for the year ended 31 March 2026.

The preparation of the financial statements in accordance with IFRS requires the use of certain critical accounting estimates and management judgement in applying the Group's accounting policies.

b) Measurement basis

The measurement basis used is the historical cost basis except for investment property that has been measured at fair value.

Under the historical cost basis, assets are recorded at the amount of cash or cash equivalents paid or the fair value of the consideration given to acquire them at the time of their acquisition. Liabilities are recorded at the amount of proceeds received in exchange for the obligation or, in some cases, at the amounts of cash or cash equivalents expected to be paid to satisfy the liability in the normal course of business.

c) Translation of foreign operations

The results, cash flows and financial position of Group entities that have a functional currency different from the presentation currency of the Group are translated into the presentation currency as follows:

- Assets and liabilities, including goodwill and fair value adjustments arising on acquisition, are translated at rates of exchange ruling at the reporting date
- Specific transactions in equity are translated at rates of exchange ruling at the transaction dates
- Income and expenditure and cash flow items are translated at weighted average exchange rates for the period or translated at exchange rates at the date of the transaction, where applicable; and
- Foreign exchange translation differences are recognised in Other Comprehensive Income (OCI) and accumulated in the foreign currency translation reserve (FCTR), except to the extent the difference is allocated to non-controlling interests.

An entity may have a monetary item that is receivable from a foreign operation. An item for which settlement is neither planned nor likely to occur in the foreseeable future is, in substance, a part of the entity's net investment in that foreign operation. On consolidation, exchange differences arising from the translation of the net investment in foreign operations are taken to other comprehensive income and accumulated in the foreign currency translation reserve.

B. Safaricom Group

a. Connectivity Revenue

KShs Mns	Group		Company

Total net debt	(139,810.2)	(129,397.7)	(78,240.0)	(91,217.4)

f. Normalised growth

The table below represents normalised growth, which presents performance on a comparable basis. This adjusts for foreign currency fluctuation on a constant currency basis (using the current year as base), to show a like-for-like comparison of results. We believe that normalised growth, which is not intended to be a substitute for, or superior to reported growth, provides useful and necessary information to investors and other interested parties for the following reasons:

- It provides additional information on underlying growth of the business without the effect of certain factors unrelated to the operating performance of the business;
- It is used for internal performance analysis; and
- It facilitates comparability of underlying growth with other companies, although the term normalised is not a defined term under IFRS and may not, therefore, be comparable with similarly titled measures reported by other companies.

	GROUP FY26			
	Reported (KShs Mn)	YoY% Reported	YoY% excl. impact of IAS 29	YoY% Constant Currency excl. impact of IAS 29

Safaricom Plc's investment in Ethiopia is held through Vodafamily Ethiopia Holding Limited, a jointly owned entity with Vodacom Group Limited. Vodafamily Ethiopia Holding Limited holds a controlling interest in Global Partnership for Ethiopia (GPE) B.V., the Netherlands-incorporated investment vehicle that in turn owns 100% of Safaricom Telecommunications Ethiopia Plc (STE), the licensed operating company in Ethiopia. Safaricom's indirect effective interest in STE exceeds 50%, and the Group retains control over the investment. Accordingly, Vodafamily Ethiopia Holding Limited, GPE B.V. and STE are fully consolidated in Safaricom Plc's financial statements, with the interests of other consortium partners presented as non-controlling interests, notwithstanding contractual "catch-up" rights held by those partners.

e. Funding of Safaricom Ethiopia

Safaricom Ethiopia is funded through shareholder equity, deferred vendor payments and third-party borrowings. Shareholders of GPE contributed USD 2,551Mn as of 31 March 2026. This funding includes the license fee of USD 850Mn and the USD 150Mn M-PESA license fee. Safaricom PLC's contribution amounts to USD 1,223Mn. The operating entity has also borrowed from the local market and is leveraged as shown in the table. Also included in the table are the closing outstanding amounts for the periods under the deferred vendor payments agreements

USD Mn	31 March 2026	31 March 2025
Equity	2,285	2,047
Local currency debt	126	105
Foreign currency debt (IFC & Standard Bank)	234	100
Shareholder loan	-	18
Total Funding	2,645	2,270
Deferred vendor payables	89	194
Safaricom PLC's Funding contribution	1,223	1,058

f. Safaricom Ethiopia Shareholding Update

	As at 31 Mar 2026	As at 31 Mar 2025
Safaricom Plc	54.17%	51.67%

Sumitomo	23.50%	25.23%
British International Investment (BII)	9.50%	10.11%
IFC	6.81%	7.25%
Total	100%	100%

g. Ethiopia's hyperinflationary status and exit from IAS 29

Background

Ethiopia was classified as a hyperinflationary economy in FY2022, when its three-year cumulative inflation exceeded 100%, meeting the threshold under IAS 29: Financial Reporting in Hyperinflationary Economies. The surge in inflation was driven by currency depreciation, fiscal imbalances, political instability, and global supply chain disruptions.

As a result, IAS 29 was applied from December 2022, and Safaricom PLC restated its financial statements for the years ended 31 March 2023, 2024, and 2025 using the Consumer Price Index (CPI) - CPI measures the average change over time in prices paid by households for a standard basket of goods and services and is a key indicator of inflation. This impacted the presentation of income, assets, and equity, including recognition of net monetary gains.

Macroeconomic Stabilisation and Projected Exit

By May 2025, inflationary pressures had eased significantly. The IMF reported a three-year cumulative inflation rate of 109% as of December 2024 but projected a decline to 80% in 2025 and 54% in 2026. Ethiopia's national statistics office reported a three-year rate of 92% and a 12-month rate of 14% as of May 2025. These trends, alongside improved currency stability and fiscal discipline, indicate Ethiopia will fall below IAS 29 thresholds by 30 June 2025.

IAS 29 Impact

The cumulative inflationary adjustments will unwind gradually through the financial statements over the coming years, in line with the remaining useful lives of the restated nonmonetary assets and liabilities. These adjustments will affect revenues, direct costs, and depreciation and amortisation.

During the year, Safaricom Plc recognised a net impact of KES 7.6 billion across revenue, direct costs, and depreciation and amortisation, reflecting the unwinding of inflation-indexed balances previously recognised in respect of Ethiopia.

The table below summarises the impact of the discontinuation of IAS 29 on the Group's consolidated financial statements for the year ended 31 March 2026.

Profit & loss statement	Mar-26 ETB Mns	Mar-26 KShs Mns
Revenue	7.4	6.6
Direct costs	(262.6)	(236.5)
Depreciation - PPE	(3,753.9)	(3,379.1)
Amortisation - RoU	(789.9)	(706.6)
Amortisation - Intangible assets	(3,640.5)	(3,268.7)
Total impact	(8,439.4)	(7,584.3)

4. ADDITIONAL DISCLOSURES ON SAFARICOM KENYA PERFORMANCE

A. Financial Services/M-PESA

a) M-PESA Revenue, Values and Volumes

i. M-PESA Revenue contribution, profile mix and customer evolution

% of M-PESA to SR	38.3%	39.7%	42.4%	44.2%	45.6%	1.4%	

M-PESA usage continues to grow as we accelerate new growth areas

Velocity in the M-PESA ecosystem continued to accelerate in FY26, driven by sustained growth across our FinTech solutions including payments, lending, savings and international remittances. This reflects increasing customer engagement and higher frequency of transactions across both consumer and business use cases. During the year, the total value of M-PESA transactions grew 8.9% YoY to KShs 41.68Trn, while transaction volumes increased by a strong 25.1% YoY to 46.41Bn. The faster growth in volumes relative to value underscores rising usage intensity, supported by broader adoption and expanded use cases.

We continue to leverage our digital platforms, including the M-PESA Super App, to deliver an end to end, seamless customer experience across the ecosystem. The Super App brings together payments, savings, lending, wealth and global payments into a single, intuitive interface, enhancing convenience and driving deeper engagement. We now have 21.99Mn Consumer App sign ins, with 6.58Mn Active Consumers. On the enterprise side, adoption of the Business App continued to scale, with over 458.9k active business customers using the platform to accept payments, manage cash flows and access tailored financial solutions.

Glossary

i. Description of M-PESA Profile

Item	Description
Transfers (P2P)	All person-to-person funds transfer transactions to a registered /Unregistered M-PESA subscriber (Excludes transfers or payments to businesses).
M-PESA Agents	A business that has been onboarded to facilitate the transformation of cash to e-value via deposit and vice versa via withdrawal. An M-PESA agent may also be authorized to onboard new subscribers onto Safaricom or M-PESA as well as other sales and cross-sell activities at a commission.
Withdrawals/ Cash out	All financial transactions that involve a customer receiving cash from an M-PESA agent or ATM, withdrawn from their M-PESA wallet.
Deposits/ Cash in	All financial transactions that involve a customer giving cash to an M-PESA agent in exchange e-value into their M-PESA wallet.
Payments	
C2B, B2C and B2B	C2B (Paybill) All person-to-business transactions which involve transfer of funds from a customer to a business till (typically involving large business & excludes agent deposits or payments to medium or small businesses). B2C All business-to-person transactions which involve a transfer of funds from a business till to an individual customer (typically done by large business & excludes agent withdrawals). B2B All Business-to-Business transactions which involve transfer of funds from one business till to another business till (Excludes fund transfers within the same business to facilitate business operations).
Lipa Na M-PESA (LNM)	All financial transactions that involve payments into or out of Lipa na M-PESA tills (Buy Goods & transacting till). LNM has two major use cases; Buy Goods - mainly used for one-off payments to merchants, this is done 'on the go', mainly face to face but can also be done remotely. Transacting Tills/Business Tills- The M-PESA Business till is an enhancement of the existing Lipa Na M-PESA Buy Goods till that enables business owners to collect payments on the till and use the money collected to make other transactions directly from their till.
Pochi La Biashara	Pochi La Biashara, translated to 'Business Wallet' in English, is a product that allows M-PESA registered customers who own informal businesses such as; food vendors, kiosk owners, boda-boda operators, second hand clothes dealers, etc. to receive and separate business funds from personal funds on their M-PESA line.
Savings and Lending	
M-Shwari	The M-Shwari is a micro-credit product which allows customers to borrow money or to complement their savings towards an investment or enterprise. The M-Shwari Deposit Account is a micro-savings product which allows customers to securely store their money for a specific purpose or for unexpected events. Safaricom provides support to NCBA (a tier 1 Kenyan Bank) in the roll-out of this product.
KCB-M-PESA	The KCB M-PESA is a micro-credit product which gives customers access to loans for an emergency or to fund a project or an enterprise. Safaricom provides support to KCB (a tier 1 Kenyan Bank) in the roll-out of this product.

Fuliza	In partnership with Kenyan lenders, NCBA, KCB and Sidiya Bank, Safaricom Kenya operates an Overdraft (OD) facility dubbed 'Fuliza', a product that enables customers to access unsecured line of credit by overdrawing on M-PESA to cover short-term cash-flow shortfalls subject to an applicable pre-determined limit. Fuliza is available to all M-PESA customers, however the awarding of limits will depend on the customer's credit scoring and how long they have been using M-PESA. Customers who 'opt in' on Fuliza are charged a one-off access fee and daily maintenance fees on unpaid loan amounts based on a pre-determined matrix.
Timiza	In partnership with ABSA Kenya, Timiza is a wallet solution that offers easy banking and instant loans to customers. Through *848# or the Timiza app customers are able to get an instant loan, save, send money, pay bills, purchase airtime, and get insurance with Timiza.
Overdraft facility for businesses (Merchant OD)	Merchant OD is a loan product in partnership with KCB Bank Kenya (KCB). The service enables business owners on Lipa Na M-PESA to complete payments even with insufficient funds in their till. The service applies when making transactions from a Lipa Na M-PESA Business Till to other Till Numbers and PayBill Numbers, when sending money to an individual, and when withdrawing to the nominated number or at an Agent. The service advances an overdraft of up to KShs 400,000 depending on the business' limit. The overdraft is offered a 2% one off fee and a tiered daily access fee after the 24-hour free period.
M-KOPA	All financial transactions associated with the M-KOPA proposition, a buy-now-pay later product from the M-KOPA company e.g Devices, Solar. After an initial deposit, customers pay daily instalments via a mobile money service (M-PESA) until paying off the balance. Once this repayment is complete, customers own the unit outright. M-KOPA provides solar home systems and other that innovatively integrate machine-to-machine technology (M2M) with a micro-payment solution. The system includes embedded GSM technology for monitoring and metering usage, while its pay-as-you-go service carries the advantage of no large initial cash outlay. After an initial deposit, customers pay daily instalments via a mobile money service (M-PESA) until paying off the balance. Once this repayment is complete, customers own the unit outright. Importantly, this solution is cheaper and healthier than the alternative, kerosene lamps for rural households with no electricity. M-KOPA solar is currently available in 750 outlets nationwide in Kenya through the Safaricom distribution network.
Taasi Pochi (Pochi Term Loan)	Taasi Pochi is a short-term credit facility in partnership with Sidiya Bank and Pezesha Africa Limited, (Pezesha Africa Limited is a Kenyan fintech company that builds and provides digital lending infrastructure for small and medium-sized businesses (SMEs) in Sub-Saharan Africa) It provides instant loans ranging from KES 1,000 to KES 250,000 to businesses that operate through the Pochi La Biashara wallet. To qualify, a business must have at least six months of active transactions on the wallet.
Taasi Till (Merchant Term Loan)	Taasi Till (Merchant Term Loan) is a financial product provided by Safaricom in partnership with Diamond Trust Bank (DTB) and Asante Finance, (Asante Financial Services Group, is a digital, credit-led neo-bank that provides financial services to Micro, Small, and Medium-sized Enterprises (MSMEs) and individuals in Sub-Saharan Africa) targeting businesses that use the Lipa Na M-PESA Buy Goods Till. It offers short-term loans ranging from KES 100 to KES 200,000, with repayment periods of 1, 7, or 21 days. Eligible businesses must have operated the till for at least three months and can only hold one loan per till at a time.
Ziidi MMF	Ziidi MMF is a mobile-based money market fund jointly offered by Safaricom (NSE: SCOM), Standard Investment Bank and ALA Capital Limited. The fund enables customers to invest directly from their M-PESA wallets, earning daily-accrued interest credited to their Ziidi wallet. Regulated by the Capital Markets Authority (CMA), Ziidi MMF offers transparent daily yields, simple onboarding via the M-PESA App or USSD (3345#), and no maximum investment limit, with the daily M-PESA transaction limit of KES 500,000 and a per-transaction limit of KES 250,000 applying. Ziidi Shariah complements the offering by expanding the ecosystem to provide inclusive, Shariah-compliant investment options – The current yield stands at 5.8%
Ziidi Trader	Ziidi Trader is a mobile-based share-trading platform jointly offered by Safaricom (NSE: SCOM), Nairobi Securities Exchange (NSE) and Kestrel Capital (EA) Limited, a licensed investment bank and stockbroker in Kenya. Accessible through the M-PESA App, the platform enables customers to buy and sell NSE-listed shares and corporate bonds directly from their mobile phones, monitor portfolios, and access market insights through a fully digital experience. Operating under the oversight of the Capital Markets Authority (CMA), Ziidi Trader ensures investor protection, transparency, and market integrity, while supporting informed long-term investing through clear disclosures and investor education. The platform allows customers to begin investing from as little as one share, providing a simple, secure, and fully digital access point to Kenya's capital markets.

IMT	
International Money Transfer (IMT)	M-PESA Global Safaricom Plc through its fully owned subsidiary, Safaricom Money Transfer Services Limited (SMTSL), operates remittance services that allows customers to send and receive money to a beneficiary through registered mobile phone numbers in partnership with third party International Money Remittance (IMT) providers. Revenue is earned from transaction fees charged to customers for international money transfers (inbound and outbound). M-PESA global enables M-PESA registered customers to send and receive money: 1. To East Africa: Rwanda, Tanzania & Uganda. 2. Globally: To millions of Bank accounts and over 500,000 Western Union locations globally. 3. Through PayPal: Access funds quickly and shop around the world with PayPal mobile money service with M-PESA. M-PESA GlobalPay Virtual VISA Card M-PESA GlobalPay Virtual VISA Card is a digital prepaid card, launched by Safaricom in partnership with VISA, that links to a user's M-PESA wallet. The virtual card enables users to make payments to international online merchants for goods and services using their card details. The M-PESA GlobalPay virtual VISA card is only used to facilitate CNP (Card Not Present) global payments. Local Payments (those denominated in Kenya shillings) still continue to use the pochi, buygoods or paybill propositions
AliPay Partnership	M-PESA is an integrated into AliPay as a payment method on AliExpress e-commerce.
E-Commerce	
Paypal Partnership	Safaricom, PayPal and TransferTo announced a collaboration on 9 April 2018 for a new service that allows movement of funds between M-PESA and PayPal accounts. Qualifying M-PESA customers in Kenya can link their PayPal accounts to their M-PESA wallets, enabling them to easily and securely buy goods and services from merchants around the globe.
Smart Lifestyle Channels	
M-PESA Consumer App	The M-PESA App for consumers delivers the suite of M-PESA solutions to our consumers in a customer centric approach. This has redesigned the M-PESA customer experience journey to reduce demand in Call Centre and simplify multiple payments. It serves as a one stop shop for our customers with smartphone devices for various solutions.
M-PESA Business App	M-PESA for Business App allows merchants, agents and businesses to better visualize their collections and spend, see full statements and transact directly from their M-PESA Business till. The App provides users with a faster and simpler payment experience. Its an alternative to the USSD service *234# Option 2.
M-PESA Bill Manager	This is a service that allows customers to invoice and reconcile payments against the invoices, memorizing all Paybills and account numbers and better still, a way for them to be reminded of the bill payment due dates. This is a solutions targeted to billers only. It can be accessed by dialling *234# then selecting M-PESA Products followed by Bill Manager.
Insurance	Safaricom Insurance Agency Limited, a subsidiary of Safaricom PLC is a fully licensed Agency offering insurance services. Agency services were launched in August 2024 with insurance services embedded on devices sold through Safaricom's retail channels.

Other Disclosures	
Chargeable transactions	Chargeable transactions - Includes all complete financial transactions that are initiated by a customer that are eligible for charging Charged transaction - Includes all complete financial transactions that are initiated by a customer for which M-PESA is compensated either by the customer or a partner Zero-Rated (Business decision) - Includes all complete financial transactions that are initiated by a customer for which M-PESA has made a business decision not to charge Example 1: All buy-goods transactions originating from the Safaricom dealer network are zero-rated (Including those above Kes 200) Zero-Rated (Regulatory Mandate) - Includes all complete financial transactions that are initiated by a customer that we are mandated not to charge by a regulator Example 1: Kadogo Transactions – This is a low value financial transaction below Kes 101 on P2P transfers, pochi and pay bill and below Kes 201 on buy goods that are zero-rated under the approved Central Bank of Kenya Tariff. Notable exceptions may be applied to the above general rule from time to time.
